Subject: Material information

Ladies and gentlemen,

I am pleased to address You in my capacity as Head of Market Relations of Central Puerto S.A. (the “Company” or “CPSA”) to inform that on this day, the Official Gazette of the Argentine Republic published Resolution 1/2019 (“R1”) by virtue of which the Renewable Resources and Electrical Market Secretariat overturned as from today Resolution 19 dated January 27, 2017 issued by the former Electrical Energy Secretariat. Therefore, it established a new remuneration methodology for such market, which will be applied as from March 1, 2019.

Such Resolution amends some of the remuneration concepts established by Resolution 19/2017, both in terms of price and application methodology. On the other hand, the prices for energy and power remuneration continue to be denominated in US dollars.

According to the Recitals, the remuneration system approved by R1 will have a transitional application until the following is defined and implemented: regulatory mechanisms aimed at reaching an autonomous, competitive and sustainable operation that allows for freedom of contract between supply and demand; a technical, economical and operative functioning for the integration of the different generation technologies so as to guarantee a reliable and cost effective system.

With nothing further at present, I remain sincerely Yours.

Leonardo Marinaro
Head of Market Relations
CENTRAL PUERTO S.A.
